

# Nottingham Nursery School & Training Centre

## What we are doing to get 'even better' in 2021- 22

### "Always Learning Together"

#### Quality of Education

- 📌 We are focusing on some key stories and rhymes that we think your children will learn very well!
- 📌 Now Covid 19 rules have changed, we are returning to "free flow", using the outdoors more often.
- 📌 There have been some changes to the Early Years curriculum and assessment. We will be putting these into practise.
- 📌 All practitioners will support the monitoring of our high standards of provision.

#### Effectiveness of Leadership & Management

- 📌 Work together with other organisations to make sure that the school is financially secure for the future.
- 📌 Use our development time to build the team, share ideas and deepen professional dialogue.
- 📌 Keep everyone safe, supported and learning at all times!

#### Behaviour and attitudes, personal development

- 📌 We want our children to be confident speakers. We are continuing to work on this, through our story and rhyme work.
- 📌 Continue to work with parents and families. We want to hear about your fabulous children!
- 📌 Nottingham Contemporary are working with us as part of a creativity project. You'll see Sian Watson, artist, at nursery.
